

Dual Motor Vacuum Producer Kit

Part Number: E-VAC-220

Description: Tommy Dual Motor Vacuum - 13 inch Base - 220V

Site Map: Home

Price: \$2,500.00

Detailed Description

Looking for superior vacuum suction? You found it! This unbeatable super suction dual motor vacuum canister offers superb performance for self service vacuum stations! The stainless steel pole-mounted system is fully integrated with the Tommy vacuum module, a fresh and eye-catching take on the old car wash or gas station vacuum setup.

Operate 2 hoses at the same time, one for each side of the car, with suction to spare. Both producers are capable of delivering premium suction and CFM you won't find in other systems. The canister is fully stainless steel and has been constructed to survive all weather conditions without rust, wear, or tear. A high capacity, easy-access filter system means you won't have to clean it too often either, and it won't take long when you do.

Specifications

Producer:

- 220V
- 13.4 amps (peak demand)
