Auto Passport RFID

Open a World of Customer Relationships and Profit Building Opportunities

ICS's Auto Passport system leverages the proven consistency of RFID technology to drive your car wash's customer loyalty programs; the lifeblood of any successful car wash operation. With a long history of reliability and accuracy, the Auto Passport RFID system will simplify operations and combine seamlessly with ICS's payment terminals to deliver an exceptional customer experience that will differentiate your car wash from the competition.

Auto Passport RFID

Auto Passport Features & Benefits

- Builds customer loyalty and drives increased car wash volume

- Creates a predictable revenue stream month after month regardless of the weather

- Improves customer retention and revenue per customer with monthly wash clubs

- Increases revenue by offering extra services or wash club upgrades

- Provides customers with the convenience of recurring billing

- Offers customers the assurance of a secure, contactless transaction

- Provides select customers with special offerings through the use of a customizable profile associated with their RFID tag

- Delivers 99+% accuracy

- Detailed reporting within WashConnect, ICS's multi-site management and point-of-sale system, simplifies the management of revenue-generating wash clubs and fleet programs

- RFID tags contain a secure chip that becomes disabled if tampered with eliminating the possibility of fraud

- Supports your car wash's branding efforts with customizable RFID tags that feature your logo
